

Kossuth, it is said, declines to return to Hungary. The president, secretary and several of the members of the Operative Tailors' Association, of London, appeared at the Marlborough Street Police Court, London, in answer to summonses charging them with conspiracy. The conspiracy continuing the system of pickets about the premises of master tailors. Several men are awaiting trial at the Central Criminal Court on a similar charge, and Mr E. Lewis applied for the hearing of the charges against the present defendants to be adjourned until the trial of the other men had taken place. Mr Knox, the magistrate, declares that since he came back to England he had been 'so much shocked by the doings of trades' unionists that he would not grant the adjournment, and the hearing proceeded. The accounts from all parts of Ireland represent the harvest prospects as better than in any year since 1859. The weather is (August 15) delightful, and the ripening of cereals progresses very rapidly. The potato blight has appeared in some districts, but so slightly that no approach to alarm has been occasioned. The pillage of a Catholic Church at Bengehaxi, says the Paris *Moniteur*, having given rise to a demand for indemnity, the government of Tripoli has deposited in the hands of the French Consul the sum of 3,750*l* on behalf of the Catholic mission, in compensation for the losses. We learn from Tangier that the Moorish Minister communicated to the foreign representatives on the 4th of August the Sultan's decision that the exportation of grain from Morocco, recently prohibited, is to be permitted for six months longer, counting from 10th July. The new Bashaw of Tetuan arrived at Tangier with three hundred troops. His presence and the exhibition of force to support the authority of his office were both much needed. The assassinations at the very gate of Tetuan had inspired such terror that the Jews dared not stir beyond the walls, and were kept close prisoners in the town. Since the arrival of the new Governments they have taken heart and go about their business as usual. A new Governor has also been appointed to the Rif, who has promised to restore law and order. The death is announced of Lord Dankellin, one of the members of Parliament for Galway county. He was the son of the Marquis of Clanricarde. He served in the Crimea, and was taken prisoner by the Russians. It was his amendment in the House of Commons as to a rating franchise in boroughs which threw out the Russell Gladstone Ministry last year. The Paris *Liberte* affirms that a considerable amount of vague disquietude prevails in France and prevents the free development of commercial business, and attributes that state of uneasiness to the concealments and subtleties of diplomacy which have rendered the public incredulous to pacific affirmations, no matter how officially delivered. A St. Petersburg letter states that there is (August 11) every prospect of an excellent harvest in Southern Russia. The wheat crop especially is magnificent all around the coasts of the Sea of Azoff. From the state of the markets in Western Europe higher prices and an increased exportation from the Black Sea ports are anticipated. The *Odesa Messenger* states that a Jewish merchant of that city, M. Brodsky, has given a house worth 100,000*l* for the establishment of a public school. The Jews of that city have always distinguished themselves in the promotion of public instruction. The *Journal de Liege* contradicts the statement of the *Journal de Paris* as to the Empress Carlotta having been informed of the death of her husband in Mexico and states that her Majesty is still entirely ignorant of her sad bereavement. The amount of Australian gold known to be on the way to England on the 12th of August, was £833,000. The case of ex-Governor Eyre, of Jamaica, was re-suscitated in the House of Lords on the 13th August, by the Earl of Shrewsbury. He asked the government whether, considering that the prosecution of the ex-Governor has broken down, it was the intention of the government to protect him against any further appearance in a court of justice. He went the length of regretting that the government had superseded Mr Eyre, to whose wisdom and discretion the prevention of large sacrifice of life and property was attributable. Mr Eyre was now in the condition, after some years of zealous service, of being without a pension and otherwise totally unprovided for. The Duke of Buckingham, while recognizing the 'eminent services and ability' of Mr Eyre, could not undertake, on the part of the government, to promise any interference with such actions as might be taken in the courts of law by private individuals. In the case of the Tornado, Lord Stanley stated in the House of Commons that the decision of the Spanish Council of State would probably be announced in a very short time. An address, numerous signed by Schleswigers, who have left their homes and are residing in Denmark, has been presented to certain French journalists on a visit to their country. The address thanks France for her disinterested sympathy, as well as her deference to the rights of the Danes, and expresses the firmest confidence in further 'magnanimous aid' of the French people. The Paris *Etendard* of August 14 expresses its approbation of the very friendly manner in which the two deputations of the Austrian Reichsrath and the Hungarian diet have met to commence the discussion of the affairs common to the two monarchies. Our contemporary in particular praises the conduct of the Cardinal Archbishop of Vienna in endeavoring to obtain modifications in the

Concordat. The *Landeszeitung*, of Hess, reports that a Prussian military band which had gone to Darmstadt to play at a concert had been badly used. The populace followed the men on their leaving the building and pelted them with stones till they reached the station.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES

The Grouse Creek War!

GREAT GOLD STRIKE!

QUEENSLAND, October 1.—I received the following information from Mr Samuel Adler, who arrived from Williams Creek this morning:

The trial between the Grouse Creek Flume Company and the Canadian Flume Company ended on Saturday. The Flume Company have not produced the gross amount of gold taken from the disputed ground, and Judge Needham refused to give his decision until they complied with the agreement which was made before the trial commenced.

Judge Needham has reversed the decision of the Gold Commissioner's Court in suit of Williams Creek Bed Rock Flume Company vs. Synon.

A party of prospectors arrived on William Creek from one of the outside creeks, where they have been prospecting for five or six months, and report the biggest prospects ever struck in Cariboo. The whole population on the creek are in a fever of excitement, and everybody is getting ready to go to the new discovery.

Later.

QUEENSLAND, Oct 1, 8:15 p.m.—Passengers are just in from the Creek. Judge Needham was to give a written decision in the Grouse Creek Flume and Canadian case this morning at ten o'clock.

Mexico.

NEW YORK, Sep. 29.—Vera Cruz advises say Gen. Diaz has accepted the candidacy for the Presidency. His adherents are organizing, and a furious election campaign is now going on. It is considered probable that Marquez is still concealed in the City of Mexico.

The Princess Salm Salm is living at Queretaro, where her husband is serving out his seven years' sentence.

Europe.

FLORENCE, Italy Sept. 29.—Garibaldi has written a letter in which he says Romans have the right of all slaves to rise against their oppressors. It is the duty of all Italians to help in the struggle for liberty. Patriots are not to be discouraged by a first reverse, he exhorts them to reorganize and march again for the liberation of Rome. The letter concludes with an appeal to the liberty party of Italy, declaring that the eyes of the world are turned upon them. The nations of the earth anxiously await their action in the present crisis. Particulars received show that the riots in Italy last week were more serious than were first reported. In some of the cities the riots were fierce and obstinate; troops were frequently obliged to use the bayonet, and sometimes fire upon the people. Many citizens and some soldiers were killed, and a large number wounded.

CONSTANTINOPLE, Sept. 29.—The Sultan has sent a commission of enquiry, consisting of 40 Turks and 30 Greeks, to investigate the affairs of the Island of Candia.

LONDON, Sept. 29.—The Government dispatched a number of guns and guards to the southwestern coast of Ireland. Fears are entertained that the Fenians, emboldened by their success at Manchester, will attempt to release Capt. Moriarty, now undergoing sentence of imprisonment. Thirty Fenians convicted were transferred to Portland for safe keeping.

Advices from Constantinople say that Omar Pacha has withdrawn his resignation and will retain command in Candia.

Eastern States.

NASHVILLE, Sept. 27.—Grant telegraphed to Thomas telling him the military can't be used to defeat the executive of State in administering the laws of the State. Thomas therefore sustains the State authorities, and accordingly an election of officers appointed by the city has been withdrawn, both conservative candidates are also withdrawn, and the election will be quiet and peaceful.

GALVESTON, Sept. 27.—Nearly the whole command of the 15th infantry, including Col. O'Connor and his wife, have died at this place of yellow fever.

NEW YORK, Sept. 27.—Intelligence from Hayti to the 8th, represents the country to be in a state of extraordinary agitation. Provisions are scarce.

NEW YORK, Sept. 27.—The *Times* special says, a settlement has been effected in the case of the Government against Frazer Trenholm, & Co. The terms are not made public.

NEW YORK, Sept. 27.—The *Herald's* Richmond special says it is now definitely settled that Jeff Davis' trial shall take place at the November term of the Circuit Court. Chief Justice Chaso has expressed his intention to preside.

Second Despatch.

Eastern States.

NEW YORK, Sep. 28.—Judge Underwood and District Attorney Chandler have both expressed the opinion that sufficient testimony can be produced to convict Jeff Davis. The friends of Davis assert that he is willing for a trial.

The *Herald's* special says the Radicals of Virginia claim that they will have at least 60 out of the 100 delegates to the State Convention.

WASHINGTON, Sept. 28.—The terms of settlement of the business between Frazer, Trenholm & Co. is mutually satisfactory. The defendants, by counsel, acknowledge the principle of public law claimed by the United States Government, and will provide for securing to it all the property to which it is entitled on those principles. Further action, however, is necessary for the consummation of the terms through the courts of England and the United States.

Europe.

LONDON, Sept. 28.—The reports from Italy are very conflicting. Latest despatches mention serious riots at Modena, Milan, Genoa and Naples. Garibaldi was going to Caprera.

The Pope has sent a message to Napoleon thanking him for the arrest of Garibaldi.

MANCHESTER, Sept. 28.—The police are very active in arresting persons believed to be implicated in the recent riots. Scores have been apprehended since last report. The prisoners are all discharged, however, as fast as they are examined, nothing being proven to warrant their detention. Nothing has been yet elicited in regard to the Fenian plans.

LONDON, Sept. 28.—Fenian rumors are current. It is announced to-day that another Fenian cruiser has been hovering about the Irish coast. The Government is taking every precaution to prevent an outbreak.

PARIS, Sept. 28.—The Turkish Government officially denies the published statement that it has been or will be pledged to Bakhara in the struggle against Russia.

BERLIN, Sept. 28.—Kiel will be immediately fortified by King William and garrisoned by Prussian troops.

NEW YORK, Sept. 28.—A cable dispatch to the *Tribune*, dated Constantinople, says Russia's demand for the cession of Crete to Greece and the equality of Christians being refused, Ignatieff went to make his report to the Czar, and has just returned. The Czar declines to see the Sultan, having nothing agreeable to say. Neither recedes from its position.

Accounts from Athens say that a large party in Greece favor deposing the King and proclaiming a republic under the protectorate of the United States or annexing it as one of the States.

California.

SHIPPING.

SAN FRANCISCO, Sept. 30.—The steamer Golden Age sailed for Panama to-day.

DELAYED DISPATCHES.

Mexico.

CHICAGO, Sept. 23.—Advices from Mexico to the 7th state that the remains of Maximilian have arrived at Vera Cruz, and will probably be delivered to Admiral Tegethoff.

Juarez has issued a decree commuting confiscations to fines to be levied upon all convents, and the proceeds devoted to public use by the Government.

Eastern States.

WASHINGTON, Sept. 20.—It has transpired that the President has urged Gen. McClellan to accept of the War Department, but that the latter has promptly refused it. The friends of McClellan, however, are hopeful that he may yet yield to the solicitation of the President, and succeed to the important position.

BOSTON, Sept. 24.—The funeral of Sir Frederick Bruce was largely attended to-day. Among the pall-bearers were Govs. Bullock, Butteny, the French Minister, Senator Sumner, Longfellow and Mayor Norcross.

Beauregard has written a letter to the *Baltimore Gazette*, in which he says that being an outlaw in his native country, he don't feel called on to uphold its Government, especially when the country is divided in opinion, whether Congress or the President is the Government; but confidently believes that unless the Radicals are beaten, the Government will soon be changed to a military despotism.

An altercation took place last night between Senator Patterson and General Kye, of Tennessee. The former was knocked down and attempted to shoot his antagonist, but friends interfered and prevented serious consequences. A reconciliation subsequently took place between them.

WASHINGTON, Sept. 23.—Dispatches have been received from Admiral Farragut, giving an account of his visit to the Russian fleet, August 30th. Great honors were paid to our officers, by those of the Russian Navy, and the most cordial friendship was manifested.

NEW YORK, Sept. 25.—A special dispatch from Key West says O'Loughlin, one of the assassination conspirators, has died of fever.

NASHVILLE, Sept. 25.—Mayor Waller and an ex-Federal officer from Indiana, had a pistol fight with one Smith in a saloon, the former attacking. Three shots were exchanged, and Waller was wounded. It is thought he cannot survive.

CHICAGO, Sept. 25.—The *Detroit Tribune* publishes a significant letter from Senator Howard, who referring to what

the Washington *Intelligencer*, said; that Senators who expressed their convictions beforehand, shall not sit in judgment upon the President. Howard says it is generally understood that that paper is under the patronage and control of Johnson and his immediate advisers, and in view of the military preparations now going on in Maryland and other border States, such threats cannot be regarded as unbecoming. They originate in a purpose on Johnson's part to attempt violence upon Congress. They become deepened and intensified under the malignant influence of his private advisers. Howard says Congress will do its duty and rely upon the people to protect it. The assault of Congress by military violence would have a decidedly beneficial effect on the Government, as leading to the final conclusion of the suppression of the rebellion by the condign punishment of their tormentors.

CENTRAL AND SOUTH AMERICA.

Panama.

The adherents of Mosquera have yielded to the present authorities, and Columbia is enjoying a period of repose from civil strife.

Chili.

The fears of war with Spain have subsided, and business was reviving in consequence.

The Chilean Congress was still in session. There is a deficiency of over two millions and a half in the estimates for the coming year. Bills were pending for the abolition of capital punishment, and of imprisonment for debt, which were likely to pass without much opposition. Important amendments to the Constitution are also under discussion.

Don Manuel Antonio Tocornal, Speaker of the Senate and leader of the Conservatives, died on the 16th of August.

Peru.

Dates from Callao are to the 28th ult. Mr. Modesto Basadre has been authorized by Government to build a railroad from Lima to Chancay, with privilege to extend the line to Huacho and Huancra. This road will pass through a rich country which presents no engineering difficulties.

A law has been passed authorizing the government to continue the surveys for the proposed railroad between Lima and Jaqui. These works will soon commence.

The steamers Mayro and Aurora, bought from the United States for the Peruvian navy, and afterwards ceded to the National Steamship Company, have been lately abandoned as useless.

Private letters received at Panama state that another revolutionary scheme against Prado had been discovered, and the chief movers in the affair arrested. It was the intention of the conspirators to have assassinated Prado on the 31st of August, and to have proclaimed Causeco President instead.
